WILLIAM B. GRAHAM PRIZE FOR HEALTH SERVICES RESEARCH

CONGRATULATIONS TO THE 2023 WILLIAM B. GRAHAM PRIZE FOR HEALTH SERVICES RESEARCH RECIPIENT

LISA A. COOPER, MD, MPH

Bloomberg Distinguished Professor
School of Medicine and Bloomberg School of Public Health
Johns Hopkins University

Dr. Lisa A. Cooper is a Bloomberg Distinguished Professor at Johns Hopkins University School of Medicine and Bloomberg School of Public Health. She is also the James F. Fries Professor of Medicine in the Division of General Internal Medicine and a core faculty member in the Welch Center for Prevention, Epidemiology, and Clinical Research, and she holds a joint appointment in the School of Nursing.

The mission of the Baxter International Foundation is to increase access to healthcare for the disadvantaged and underserved in the United States and around the world. Commitment to that mission is demonstrated in the grant-making, employee, and prize programs that are part of the Foundation's offerings. In each of these efforts, the Foundation's fundamental purpose is to make a positive and lasting impact on healthcare and the health of communities in and near where Baxter employees live and work.

Discover How Leading Public Health Programs Succeed with AHA Data

Since 1946, the **American Hospital Association** has collected data provided by the nation's hospitals and health care systems to give researchers the most consistent and complete view of trends.

AHA Data is the research community's destination for reliable, historic hospital data:

- Data from more than 6,200+ hospitals and 400 health care systems
- Use it as a single reference or seamlessly match it to other public data sets to expand your analysis
- Explore physician models by hospital size, ownership-type, and geography
- Identify the change in hospital and health care system affiliation over time

AHA Data is a go-to data resource for academic and government institutions worldwide, including:

- Centers for Disease Control and Prevention
- U.S. Census Bureau
- Centers for Medicare and Medicaid Services
- *U.S. News & World Report*
- *Health Affairs*
- Office of the National Coordinator (ONC)
- *The New England Journal of Medicine*

Data from the AHA annual survey of hospitals unlocks tremendous opportunities for research.

"The wealth of questions allows a wide array of research possibilities."

- Bobray Bordelon, Economics & Finance Librarian,
Princeton University Library

"As health care costs, financing and investment opportunities continue to expand, having the most reliable information on this burgeoning field is essential."

- Robert Zarazowski, Managing Director, WRDS
